

DECTRON POOL PERFECT®

Patented

Air Cooled
DX Indoor Pool Dehumidifier

A woman is shown underwater, wearing clear diving goggles and a patterned swimsuit. She is making an 'OK' hand gesture with her right hand. Bubbles are visible around her head and in the water.

THE **PERFECT**
WAY TO
DEHUMIDIFY!

Dectron, the inventor of the original DRY-O-TRON® energy recycling dehumidifier, introduces "DECTRON POOL PERFECT®".

DECTRON POOL PERFECT® is the latest innovative design product to emerge in the dehumidification industry to protect your indoor pool or natatorium against humidity and structural damage.

DECTRON POOL PERFECT® dehumidifier products are designed and engineered with multiple features that provide the most efficient and advanced performance at minimal cost.

 **Dectron®**
for better air

THE **PERFECT** WAY TO DEHUMIDIFY!

DECTRON POOL PERFECT®

FEATURES

- No Remote Condenser Required
- Lower Initial Installation Cost
- Standard Ventilation, Economizer, and Dectron Purge™
- Increased Energy Efficiency - Lower Head Pressure
- Compact Footprint - Perfect Pool Retrofit
- Indoor or outdoor installation
- Built to last
- Fully field tested and proven Dectron badge worthy.

POOL PERFECT® ADVANTAGES

- Increased system reliability and simplified user-friendly refrigerant circuit
- **65% REDUCTION OF REFRIGERANT VALVES/PIPING/WELDS**
- Lower refrigerant charge - only 3 lb/Ton when combined with Dectron Micro-Channel coil
- NEW Head Pressure Control - An Industry First!
- Precise control of space air and pool water heat outputs
- Simultaneous heat distribution to pool water, supply air, outdoor/ air exhaust
- All Modes of Operation Fully Factory Tested and **SEALED BY THE HANDS THAT BUILT IT!**
